§ 585.3 Program components.

A Youthbuild implementation program uses comprehensive and multidisciplinary approaches designed to prepare young adults who have dropped out of high school for educational and employment opportunities by employing them as construction trainees on work sites for housing designated for homeless persons and low- and very low-income families. A Youthbuild planning grant is designed to give recipients sufficient time and financial resources to develop a comprehensive Youthbuild program that can be effectively implemented. Youthbuild programs must contain the three components described in paragraphs (a), (b) and (d) of this section. Other activities described in paragraph (c) of this section are optional:

(a) *Educational services*, including:

cation, bilingual education for individuals with limited English proficiency, secondary educational services and activities designed to lead to the attainment of a high school diploma or its equivalency (GED), or counseling and assistance in attaining post-secondary education and required financial aid;

(2) Vocational classroom courses geared to construction terminology and concepts; and

(3) Strategies to coordinate with local trade unions and apprenticeship programs where possible.

(1) Entrepreneurial training and courses in small business development;

(2) Assistance to correct learning disabilities; or

(3) Drivers' education courses.

(1) Access to housing sites where construction/ rehabilitation work is being carried out;

(2) Work site training plan for a closely supervised construction site;

(3) Construction or rehabilitation plan and timetable; and

(4) Approaches to work site safety.

(e) The Youthbuild implementation program must be structured so that 50 percent of each full-time participant's time is spent in educational services

and activities (paragraphs (a), (b), and (c) of this section) and 50 percent is spent in on-site training (paragraph (d) of this section). Youthbuild planning grant applications must contain strategies, plans and approaches to be used during the planning process to ultimately implement these program requirements.
